

WHPA STRATEGY

2024-2027

PURPOSE

The global health professions collaborating for better health for all.

VISION

A world where everyone has equitable access to quality evidence-informed health services delivered by health professionals.

MISSION

WHPA is an alliance representing the world's health professions that:

- promotes and practises interprofessional collaboration through leadership, advocacy and policy development
- champions collaborative efforts, amplifies the work of its members and advocates for the pivotal role of health professions in strengthening global health systems
- presents a united voice for the health professions
- collaborates with other organisations and partners who share common goals, values and priorities to advance the health professions and universal health coverage

STRATEGIC PRIORITIES AND GOALS

1. Building a sustainable health workforce

WHPA ensures that the health professions are recognised for their vital contribution to improving health through effective workforce planning and appropriate working terms and conditions.

2. Strengthening health systems

WHPA promotes evidence-informed health professionals as integral to robust health systems, delivering timely care, and actively involved in shaping solutions.

3. Championing collaborative practice

WHPA advocates for the importance of interprofessional education and practice to deliver equitable and accessible health services for all.

CORE ESSENTIALS

Core essentials carry across all strategic areas. They facilitate and enable action that delivers on the strategic priorities.

- Advocacy
- Communication
- Education
- Leadership
- Research

VALUES

Unity

More can be achieved when we work together towards common goals.

We seek collaborative advantage through partnerships between the professionals we represent, the populations accessing health services, and the services themselves.

Diversity, Equity, Inclusion

Through the work we do, access, opportunity, equal rights, working environments and outcomes are fair and just for all.

Integrity

We do what's right and ethical, reflecting the respective codes of conduct of the professions we represent, and upholding international humanitarian law.

Respect

We accept, appreciate and embrace the differences across our professions and those involved in our work.

We build trusting supportive relationships so we can all learn and grow.
